CONTINENTAL KENNEL CLUB

LITTER APPLICATION FORM

Once this Litter Application Form is processed, Pre-Printed Puppy Applications for each puppy in the litter will be mailed to the breeder at NO COST. Check out valuable NEW puppy litter products from Continental Kennel Club on the back of this Litter Application Form.

In order to register a litter with Continental Kennel Club, the **litter must be under one (1) year of age**.

If the breeder owns both the sire and the dam of the litter, then **both must be registered with Continental Kennel Club** in order to register the litter.

This form is **not** required and the litter may be registered online or by phone **if both the sire and dam are CKC registered**.

This form **is** required to register a litter if the sire is registered with another CKC-recognized registry and is not owned by the breeder. In this case, the breeder must complete the Breeder and Litter Sections and the owner of the sire must complete the Sire Owner Section. A copy of the sire's registration certificate from a CKC-recognized registry must also be submitted along with this form.

If the sire is not registered with CKC, you may view a list of CKC-recognized registries at ckcusa.com/**abv**.
